

VOLANTÉ SYSTEMS

Quick Service Restaurant

VOLANTÉ SYSTEMS : QSR

Volanté Quick Service POS is a comprehensive quick service (QSR) POS system that gives you the tools to efficiently service customers while at the same time sending accurate information to the food prep staff. In addition, our QSR point of sale reporting package provides real-time sales statistics, server sales and a host of other sales related data, allowing you to spend more time running your business.

Features Include:

- Simply easy-to-use software
- Configurable up-sell prompting to cashiers to up sell drinks and side orders
- Automatically 'combo' eligible items
- Easily processes coupons, gift certificates and other special offers
- Automatic order routing to kitchen or bar areas
- Loss prevention integration
- Kitchen Display System (KDS) integration
- Platform independence -- choose hardware of your needs and operating systems of choice
- Built-in redundancy – avoid data loss and POS system downtime
- Real-time reporting provides sales, discounts, profitability and much more
- Many more...

Not a Point-In-Time System

Businesses evolve and grow, so should the system that runs your business.

Technology is what keeps us moving forward and at Volanté we recognize that keeping your technology current is vital to optimizing your business efficiency and maximizing your competitive advantage.

At Volanté we place great emphasis on technological research and development. We work hard to ensure when you invest in our products you only need to invest once. We want your business to remain ahead of the technology curve.

Features Include:

- Developed in Pure Java
- Platform Independence
- No Server, No Router, No Problem
- Total Data Protection
- True Data Synchronization
- N-tier Architecture
- Enterprise Backbone
